OUR SERVICES

Modules Developed Specifically for AI Threats

Our training modules are designed with AI threats at the forefront of development.

Customisable Training Modules

We offer customisable modules to offer a catered experience for individual institutions.

Real-Time Threat Intelligence

Our training modules are regularly updated and continuously evolving to remain aligned with the latest AI threats.

Wide AI Threat Coverage

We offer training that encompasses a broad range of attacks such as deepfakes, phishing, and pharming detection.

Training Analytics Dashboard

A personalised dashboard for each client displays insights into training metrics and usage analytics across their workforce.
