

Deepfake Intro

- A lecturer, a celebrity, or one of us
- Stats on the increase in fraud cases/AI related crime
- Could do a live demo, show two calls/videos/statements and ask which is real, then give our “expert analysis” on why it is that one.
- Deepfake a news anchor reporting on a massive corporate data breach caused by an employee falling for an AI generated deepfake

Market and Launch Activity Section

- Show what decisions we made, why (feedback/surveys/outreach), what we changed, and what we learnt
1. Brand Validation
 - a. Demonstrate outreach engagement and surveys, we tested different perspectives with professionals at big firms
 2. Iterative Developments
 - a. Demonstrate landing pages, feedback, surveys, iterations, final website
 - b. Note specific feedback on what should be changed and how we incorporated it
 3. External Engagement and Traction
 - a. Demonstrate conferences, Adaptive Security outreach
 4. Partnership Pitch
 - a. pitch to Deloitte and Google (early sales conversations/partnerships)

Presentation Flow

1. Hook & Problem (1 min)
 - a. Show the deepfake video hook and clearly define the rising threat of AI generated content for businesses
2. Execution & Tangible outputs (3 min)
 - a. Demonstrate our training program with either recording or live
3. Testing, Evidence & Iteration (2.5 min)
 - a. Show the user feedback and how we refined the training program based on the evidence
4. Strategy, Ethics & Law (1.5 min)
 - a. Detail the route to market along with any legal and ethical considerations
5. Reflection & Forward Strategy (1.5 min)
 - a. Reflect on the constraints and risks, outline the realistic next steps for commercialisation. Could outline the kind of support that would be needed
6. Q&A
